

Starter / Professional

General		Starter	Professional
Streamlined installation	Easy installation for both 32-bit and 64-bit versions of BarTender®	•	•
Ease of use	Intuitive, easy-to-use user interface, translated to more than 20 languages	•	•
Quick start	A collection of configurable, industry-focused, ready-to-use BarTender documents	•	•
Comprehensive help system	A complete how-to library, accessible both through BarTender and on the web	•	•
Intelligent Templates™	Design and automation tools that leverage data to reduce the number of label files		•
Included printers	BarTender is licensed by printer — contact your authorized software vendor to obtain pricing for Professional Edition	Up to 3 printers	1+ printers
Unlimited users	Enable multiple users to print labels from any networked PC	•	•

Support		Starter	Professional
Standard Maintenance and Support	Upgrade to the latest BarTender version free, and get live technical support by phone and chat during business hours with a guaranteed 24hr response time. Access to online resources, plus technical support by email	Includes 1 year	Includes 1 year

Printer drivers and monitoring		Starter	Professional
Drivers by Seagull™	Windows printer Drivers by Seagull™ enable high-performance printing	•	•
Print optimizations	Improve print speed by taking full advantage of printer-based features such as serialization, barcodes, real-time clock, static data and graphic caching	•	•
Status monitoring	Reports information back to Windows regarding printer/print job status and error conditions	•	•
Printer configuration and diagnostics	Perform printer management functions in BarTender, bypassing the printer front panel	•	•
Other printer drivers	Print to any printer that has a Windows-based driver	•	•
Email alerts	Automatically notify IT managers or other operational team members if labeling problems occur	•	•

Template design		Starter	Professional
Easy WYSIWYG template design	Design tools make it easy to create and print professional labels and documents	•	•
New Document Wizard	An easy-to-follow wizard that ensures proper document settings for quality and printing performance	•	•
Fonts	Versatile support for OpenType, TrueType and native printer-based fonts	•	•
Text formatting	Familiar, Word-like tools for you to easily create and format text	•	•
Text transforms	Add flair to your text objects with a variety of effects, such as fading, inflating, slanting, and more	•	•
Shapes and lines	Choose from over 50 shapes and 100 line style combinations	•	•
Text wrapping	Create dynamic text that wraps inside and around shapes, objects, document borders and more	•	•
Unmatched barcode support	Easily create greater than 100 linear and 2D symbologies and standards	•	•
Barcode human readable	Highly configurable human readable text and character formatting options	•	•
GS1 Application Identifier Data Source Wizard	Build barcodes in seconds using the latest GS1 compliance standards	•	•
Graphics and images	Import more than 70 graphic formats, including AI, PNG, JPG, BMP, TIF, EPS and GIF	•	•
Symbols	Choose from a wide variety of included symbols and industry-based symbol fonts	•	•
Tables and grids	Create tables and grids to organize text, barcodes, images and other objects	•	•
White-on-black printing	Switch objects from black-on-white to white-on-black printing with a single click	•	•
Front and back template design	Create two-sided “duplex” printing with separate designs for the front and back of your template	•	•

Starter / Professional

Intelligent Templates™		Starter	Professional
Layers	Template objects may be stacked, hidden and reordered when created on uniquely identifiable layers		•
Conditional printing	Create data-driven automation rules that specify when different objects, layers or templates in your document will visibly print or become hidden		•
Template selector	Conditionally print one specific template when multiple templates are available in a document		•

Data sourcing and databases		Starter	Professional
Date and time	Dynamically source dates and times from Windows or clock-enabled printers	•	•
Data validation and processing	Specify data validation rules and automatically correct data or issue warnings	•	•
Concatenate data	Create text and barcode objects that combine information from multiple data sources	•	•
Basic database connectivity	Connect to Excel or a RFC 4180 standard CSV file to import variable data into your template	•	•
Simple serialization	Increase or decrease your serial string data by increments of one (1)	•	•
Enhanced database connectivity	Connect BarTender document designs to external data sources such as SAP, Oracle, MS SQL, Azure SQL, XML, Data Builder, text files and more to print dynamically		•
Advanced serialization	Create serial numbers that support alphanumeric, hexadecimal, and custom sequencing patterns		•
Embedded database tables	Create your own database tables that travel with your BarTender document designs		•
Database filters	Print select database records using convenient query and filter options		•
Database sourced tables	Easily create tables using data from a database or external file		•
Dynamic data preview	See how your document handles real dynamic data during the design process		•
Dynamic graphics and images	Automatically source images for printing based on selected database records or queries		•
Create a database	Build your own database from scratch using intuitive tools included with BarTender		•
Write back to databases	Write back to SQL-based databases to keep track of printed records, serial numbers and much more		•

Data-entry forms		Starter	Professional
Powerful form controls	Make data input and selection easy by leveraging over 15 highly configurable form controls		•
Keyboard and mouse input	Use keyboard and mouse commands to select or enter data into forms at print time		•
Scanner input	Use a barcode scanner to input information to data-entry forms at print time		•
Image capture	Capture images at print time for ID cards or event badge printing		•
Data validation	Reduce user input errors by introducing data validation and error checking		•

Printing, encoding and exporting		Starter	Professional
Print productivity	Print labels and documents to any Windows-based printer	•	•
On-demand printing	Print labels and documents on-demand	•	•
Batch printing	Batch together dynamic print jobs that can use one or more BarTender templates	•	•
Print preview	Review your dynamic print jobs before printing	•	•

Included companion applications		Starter	Professional
Administration Console	A single destination for managing the features available in your edition, which may include security, licensing, integrations, printer failover and more.	•	•

BarTender Release 11.1 R7 and above
